MIRROR LED SERIES

Our light are guaranteed for one year
and service life over 50000 hours

BRIGHTNESS

The brightness is extremely important in our daily life. Enough brightness helps users to better complete makeup and dressing. Not only brightness is important, it is also extremely important for us to save energy and protect the environment. Therefore, high-efficiency LED mirror lights are our preferred, usually; we used the LED strip on mirror light about 100lm/watt.

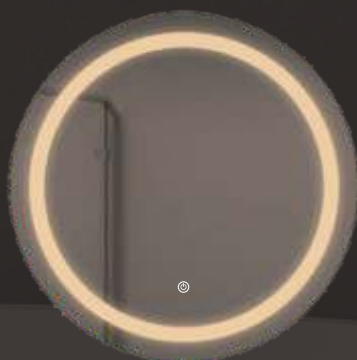

According to your mood and condition choose different color temperature/brightness. Long press ON/OFF the touch switch > 1 seconds, the adjustment of color temperature/brightness can be completed.

COLOR TEMPERATURE

Color temperature can affect people's mood, just like warm light gives warmth to people, cold light gives you solemn rush, we can provide you with any color temperature from 2700-6000K for you to choose, and we can also achieve different color temperatures on a single product. The change of the color allows you to adjust the most suitable color tone for you at different times of the day and under different moods, so that you can have a better mood to deal with every occasion correctly.

COPPER FREE MIRROR

The damp bathrooms posing a particular challenge for the mirror, that can lead to unsightly mold-like corrosion and undesirable de-silvering, our environmental mirror is an excellent choice for you with a high-quality, environmentally friendly, and long-lasting mirror, safety mirror backing is a thin layer of material adhered to the back of the mirror glass.

Adaptive Mirrors

1. 5mm mirror thickness
2. Corrosion resistance, superior adhesion
3. Clear and long lasting, no black spots
4. Quality assurance, after-sales guarantee
5. Copper-free environmental mirror

Other mirrors

1. Non good quality, easy to damage
2. Easy to rust in moist area
3. Oxidation fast, easy to produce black spots
4. Low cost, short corrosion service life
5. Copper and lead, not environmentally friendly

SALT SPRAY TEST

The principle of salt spray test is mainly to compress the corrosive solution into air spray, spray the sample, and try to wrap all sides of the sample with the spray, continue or cycle, until the sample appears corrosion phenomenon, the longer the time, the better the corrosion resistance of the sample.

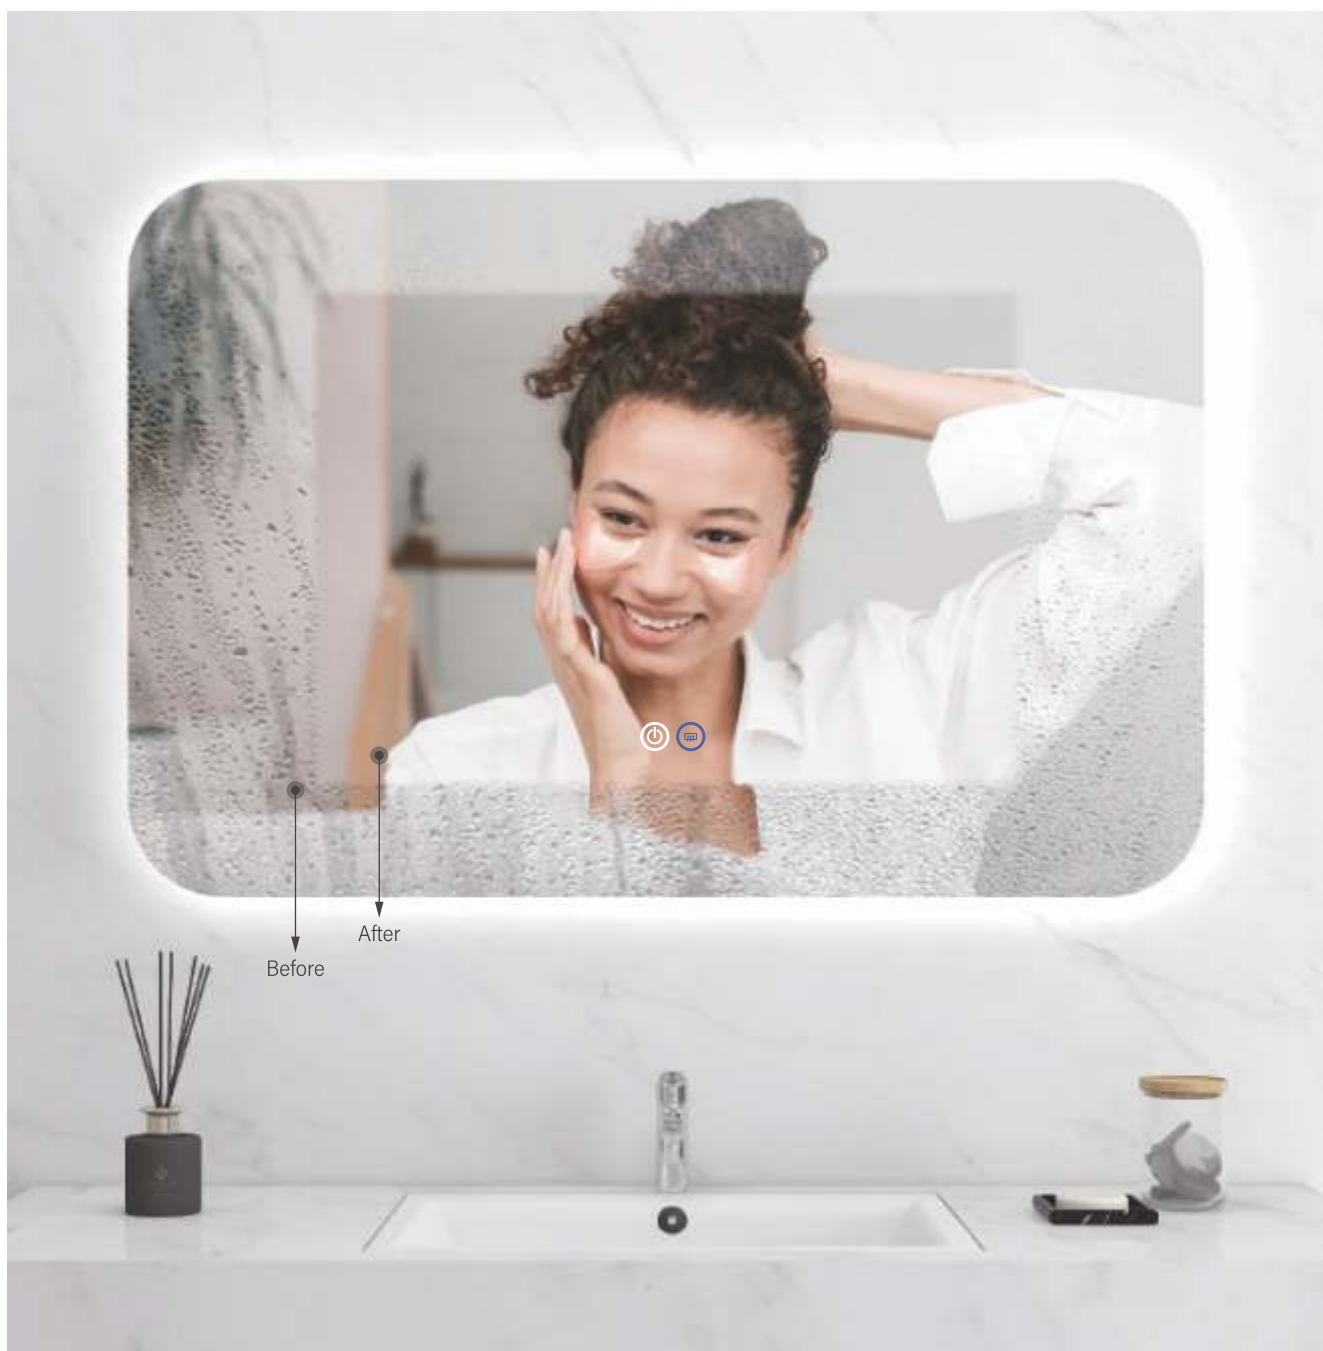

FOG-FREE

LED bathroom mirrors with fog-free function are an excellent addition to any modern bathroom.

These mirrors use advanced technology that prevents the buildup of condensation, ensuring a clear reflection even in the steamiest of bathrooms.

With their bright and energy-efficient LED lighting, Say goodbye to foggy mirrors and hello to a clear, crisp reflection with an LED bathroom mirror with fog-free function.

terna mirror

SAFETY BACKING

In the event of impact, glass shards are safely held together instead of dispersing, reducing the likelihood of injury and liability.

Ordinary mirror glass

FRAMELESS LED BATHROOM MIRROR WITH INSERT FORSTED

FEATURES

- 5mm copper free mirror with safety backing
- Insert frosted bar with hidden LED strip
- Finger print protection
- Rust resistant chassis
- 30,000 hours lifetime for LED driver
- Easy install and maintain
- Suitable for bathroom damp location use

LED DETAIL

- 60,000 hours lifetime for LED strip
- CCT:2700/3000K/4000K/6000K optional
- Adjustable color temperature acceptable
- 100lm/w Max Luminous efficiency
- Single LED strip or double strips can choose

ADDITIONAL FUNCTIONS

- 0-10V dimming
- TRAC dimming
- Touch dimming on mirror
- Night light
- Defogger
- LED digital Clock
- Bluetooth speaker
